191 MPa

## AMBARINO® High-Class

Order Number 001-2893EN

### INDICATIONS

Partial crowns, single crowns and bridge frameworks in the anterior and posterior regions, reduced or full anatomical (with a maximum of one pontic).

### BENEFITS

- + High-tech nanocomposites for outstanding stability and esthetics
- + Metal-free material, ideal for patients with metal allergies
- + No chipping of the veneer materials thanks to the nanoscale structure
- + Very high abrasion resistance (very close to that of natural tooth enamel)
- + AMBARINO® High-Class can also be repaired in situ
- + Thanks to its dentine-like elasticity, the material absorbs shocks and masticatory forces and minimizes the risk of a bone fracture, as such is very well suited for implants

### REFERENCES

The processing instructions of the manufacturer apply.

### COMPOSITION\*

Strontiumaluminiumborosilikatglas  
Nanofüllstoffe, BODMA,  
bis-GMA, UDMA
